

Innovative Details and Design

Wide Range of Accessories

CNC machined  
5-Piston-Pump

### The Patented 5-Piston-Pump

- Noise Reduction
- Higher Waterflow
- Maintenance Free
- 30% less Vibration
- Cleans up to 20% faster
- 20% less Wear per Piston prolongs motor life

**CLEAN IT ALL AND MAKE IT SHINE!**

# ▶ Pressure Washers

Cat has engineered a new breed of pressure washers, which are setting a new standard in the cleaning industry.

Optimizing unique design and technological advancements, creating a new standard in the pressure washer industry. The product line carries the Caterpillar legacy through the use of robust material combined with practical innovation and ergonomic design, driven through the best-in-class consumer insights and feedback.

Strong enough for the toughest jobs, Cat Pressure Washers are optimized to clean quickly and effectively. Unlike other machines with artificially high (but useless) PSI figures, our focus is on higher water flow WITH pressure to get through the toughest jobs.

Our CNC machined aluminum 5-Piston pump has 20% less wear per piston and 30% less vibration, resulting in more stable and quieter performance.

Our maintenance free motors are calibrated to run below their maximum amperage (unlike other manufacturers) in order to prolong motor life and avoid tripped fuses. Quick set up, intuitive use, easy to put away and handy to transport – just what you need to get the job done. Power and high flow performance in a compact form factor. No unnecessary wheels, handles or brushes to break or wear.

CAT ELECTRIC PRESSURE WASHER

With its patented 5-cylinder piston pump, that generates up to 135 bar / approx. 1960 psi, the 135-VE54 sets new standards for maximum cleaning performance. The high-pressure output ensures a superior cleaning power. The supplied foam sprayer enables machines, cars and terraces to be cleaned.

**5 Piston Pump**  
Provides higher waterflow, noise reduction and much less vibration than other pumps – Cleans up to 20% faster than comparable models in its class

135-VE54

Cat Electric Pressure Washer, 135 bar

Product features:

- » 4 Versatile Spray Nozzles (0°, 15°, 25°, 40°) for tackling light, medium and heavy cleaning
- » 600 ml Foam Blaster with Foam Nozzle for removing dirt and grime
- » A powerful 13 Amp motor and a 5-piston pump are generating up to 135 bar / approx. 1960 psi for maximum cleaning power
- » 5 m / 16.4 ft high pressure rubber hose
- » 5 m / 16.4 ft foot electric cable with GFCI protection
- » Metal gun and cleaning rod
- » Storage compartment for all accessories
- » Cleaning needle for Spray Nozzles

Stated Values according to EN 60335-2-79:

Vibration Value for Grip:	<2,5 m/s <sup>2</sup>
Uncertainty K:	0,6 m/s <sup>2</sup>
Noise Level LpA:	93,5 dB(A)
Uncertainty Kpa:	3 dB(A)
Noise Level + Uncertainty KWa:	95 dB(A)

Dimensions:

Length (excl. Accessories):	approx. 480 mm
Width (excl. Accessories):	375 mm
Height:	385 mm
Weight (incl. Accessories):	10,6 kg

Performance Data:

Peak Pressure:	82 bar approx. 1190 psi
Max. allowed Pressure:	135 bar 1960 psi
Flow Rate:	6,5 L/Min
Max. Flow Rate:	7,5 L/Min

Water Supply / Cold Water:

Max. Feed Pressure:	12 bar approx. 175 psi
Max. Feed Temperature:	40° C 104° F
Min. Feed Water Amount:	8 L/Min
Inlet size EU /Garden hose:	BSP 3/4" 14 TPI
Outlet size:	M22x15 mm

Electrical Connection:

Voltage:	220 V
Power / Motor:	1.800 Watt
Fuse:	10 A
Class of Protection:	II / IPX5
